

Bond Oversight Committee Opening is Available

All general obligation school bonds require a Citizen's Oversight Committee. The purpose of the committee as defined in the CA Education Code –

“To inform the public concerning expenditure of bond revenues.”

The members of the committee will meet periodically with district leadership and bond related personnel to stay informed as to plans and progress as we move forward with bond projects.

We are seeking a committee member who is also **a current member of a Taxpayer's Organization**, one of the criteria for a member required by the state.

If you have an interest in participating in this capacity, or have additional questions, please contact Lloyd Webb, Superintendent, at 530 895-4675 x227.
